

Deregulation of ownership rules is not acceptable because our freedom of speech and of information is already heavily dominated by conglomerate media control. In this time of American aggression the many who do not approve of U.S. imperialism are not allowed to voice their views and media supports suppression. Public radio is not even "public" because the media money interests dictate what gets aired. Capitalist fascism is media-supported and again NOT ACCEPTABLE. Can you hear my very loud NO to media deregulation? Please.
